Professional Summary

Self-taught and passionate Web Developer with hands-on experience building dynamic websites using React.js and PHP. Skilled in system maintenance, console customization, and basic cybersecurity. Always learning, always building - motivated to work on freelance and remote tech projects that push limits.

Technical Skills

- Frontend: React.js, HTML5, CSS3, JavaScript (ES6), Bootstrap

- Backend: PHP, MySQL

- Tools & Platforms: Git, Netlify, VS Code, XAMPP

- System Skills: PlayStation 4 System Maintenance, Game Installation, Custom Firmware (Offline Use)

- Cybersecurity Basics: Kali Linux, Nmap, Nikto, Burp Suite (Local Testing Only)

Experience

Full Stack Web Developer (Freelance) - Self-Employed (2023 - Present)

Developed and deployed responsive websites for clients using React.js and PHP. Built custom dashboards, CMS systems, and optimized frontend performance.

Frontend Developer (Freelance) - Various Clients (2022 - 2023)

Created responsive UI components using React. Focused on clean UX and mobile-first design principles.

Web Developer Intern - Personal Projects (2021 - 2022)

Practiced full stack development with PHP and MySQL. Built and maintained portfolio websites, cloned real-world apps, and improved backend skills.

System Maintenance & Console Customization - Independent (2023 - Present)

Performed PlayStation 4 system maintenance and offline firmware customization. Assisted with game installation and safe configuration.

Cybersecurity Learner (Self-Taught) - Kali Linux Practice (2023 - Present)

Practicing ethical web security testing using local tools like Nmap, Nikto, and Burp Suite in test environments.

Certifications

- Programming Foundations - Udacity

- JavaScript, PHP & Web Development - SoloLearn
